Come on Balthazaa I refuse to let you die  
Come on fallen star I refuse to let you die  
Cos that's wrong and I've been waiting far too long  
It's wrong I've been waiting far too long  
For you to be...be...be...be...be mine... for you to be  
mine...be mine...for you you to be mine.  
And it't wrong, I've been waiting far too long  
It's wrong I've been waiting far to long  
For you to be...be...be...be

All the centerfolds that you can't afford  
Have long since waved their last goodbyes  
All the centerfolds that you can't afford  
You've long since faded from their eyes  
So be...be mine  
So be..be mine
