Charming eyes of green
I can imagine you
Naked in a dream
And maybe weightless too

Pretty pound of flesh
Stick to me like glue
Watch you getting dressed
I will devour you

I will, I will

Chorus:
I come on too strong
You can do me right
Because I do me wrong
I come on too strong

Flaming locks of red
Your body bruised and blue

From falling out of bed
With me on top of you

My pretty waste of time
Your sock without a shoe
But I will keep you in mind
I will devour you

I will, I will

Chorus: (x2)
I come on too strong
You can do me right
Because I do me wrong
I come on too strong
