Hey you in your ivory tower
I know where you live
Hey you with so much power
I know where you live
Been in bed with the government
With you it's take, take, and no give
The CEO of the decadent
I know where you live

(I know where you live)
Deep of the heart of man
With the devil's common friend

Hey you with your dynamite
I know where you live
You with your righteous and holy fight
I know where you live
With all the orphans you create
I don't think your maker will forgive
What do you ask for when you pray?
How do you sleep when you're so vindictive?

(I know where you live)
Deep in the heart of man
(I know where you live)
With the devil's common friend
(I know where you live)
Deep in the heart of man
(I know where you live)
With the devil's common friend
