Since we're feeling so anesthetized  
In our comfort zone  
Reminds me of the second time  
That I followed you home

We're running out of alibis  
On the second of May  
Reminds me of the summer time  
On this winter's day

See you at the bitter end  
See you at the bitter end

Every step we take that's synchronized  
Every broken bone  
Reminds me of the second time  
That I followed you home

You shower me with lullabies  
As you're walking away  
Reminds me that it's killing time  
On this fateful day

See you at the bitter end  
See you at the bitter end  
See you at the bitter end  
See you at the bitter end

Everytime we're intercepted  
Feels more like suicide  
Slow and sad, come in silence  
Arise a bitter mine  
(See you at the bitter end)  
And I can see you now  
Running to me  
Arms wide out  
(See you at the bitter end)

Come on and reach inside  
Grab the gentleness inside  
Heard a cry  
Six months time

(See you at the bitter end)  
In six months time  
Prepare the end
