It takes the pain away
That could not make you stay
It's way too broke to fix
No glue, no bag of tricks

Lay me down
The lie will unfurl
Lay me down to crawl

Your smile would make me sneeze
When we were Siamese
Amazing grace in here
I pay to have you near

Lay me down
(Lay me down)
The lie will unfurl
Lay me down to crawl

Don't go and lose your face
At some strangers place
And don't forget to breathe
And pay before you leave

Lay me down
(Lay me down)
The lie will unfurl
Lay me down to crawl

Lay me down
The lie will unfurl
Lay me down to crawl
