"UNNEEDMEMORETHANINEEDU"

To call in silence
To call in starts
Come together some
And so far it works
So call
Before you come down...

Somebody says
He's been around
And somebody says
It's been around...
It's been around...
It's been around...

Well now you need me more than I need you
Well now you need me more than I need you

Somebody says...
He's been around
And somebody says
It's been around...

Well now you need me more than I need you
Well now you need me more than I need you

Well now you need me more than I need you
Well now you need me more than I need you...
