

Places To Park "Signed And Sealed"

Visit "[Signed And Sealed](#)" on MotoLyrics.com

The questions that you never thought we'd ask you
already answered
And this conversation that never happened lasted
hours

You took the words right out of my mouth
Signed, sealed and sent away
No time to work it out, we'll just take this day-by-day
(wrote it all down but never read all these words you
never said)

This discussion that never took place had a place here

Here's the time to write it all down, here's to you my
friend
The questions that you never thought we'd ask you
already answered
