Standing alone, feeling down
Feeling like a silly clown
My ideas come and sunk
I just want to be a punk

Change my idea change my gear
Got my guts lost my fear
I don't dress just to be a seen
Studs, black leather hair that's green

Viva 3x
Viva la punk

I know that this is for real
Just bring our the way we feel
We the clothes we want to wear
You whisper thing but we don't care

Just remember when you speak
We are not any kinds of freak
To look at us you don't need to pay
We are punk are here to stay

Viva 3x
Viva la punk
