The road goes on for miles
And the rain is beating down
On the windshield of your car
I've never felt so far away
Before we go
Take one last look around
The city seems so small from far away-away

And all I know
Is that I'll miss you when you're gone
And I won't let you down
For all I know
We are barely hanging on
And I can't let this go

I've finally come to realize
We live our life through maps
Every destination farther than-
The last time that I saw your face
This endless ocean's far too great to swim
You'd rather watch me drown than put things in the
past

And all I know
Is that I'll miss you when you're gone
And I won't let you down
For all I know
We are barely hanging on
And I can't let this go

And all I know
Is that I'll miss you when you're gone
And I won't let you down
For all I know
We are barely hanging on
And I can't let this go

And all I know
(All I know)
Is that I'll miss you when you're gone
And I won't let you down
For all I know

(For all I know)
We are barely hanging on
And I can't let this go
