You can have me  
But I'll defend my child  
By spring that child will die

Oh deli, oh  
Oh deli, oh  
And deli, oh  
And deli, oh  
Oh moon

Moon  
Moon  
Moon  
Moon

I'm just so warm, Jennifer  
And I'm coming over  
To sabotage our distance

Moon will lead me on  
Moon will guide me through, baby  
Moon will guide me through  
Moon will turn me on

I just don't care anymore  
'Cause my chord is calling  
It's me and truth, it's home  
I'm at home with truth alone

Moon will lead me on  
Moon will guide us through  
Moon will guide us through, baby  
Moon will turn me on

The moon, it guides me on, baby  
There's absolutely no doubt  
[Incomprehensible]

Me and truth, it's home  
I'm at home with truth alone
