Airplane, airplane  
Put me to sleep again  
Take me away  
Off to a dream

And then I'll fly  
So high across the sky  
And wake in a new place  
Where mistakes of my past are erased

Don't drop me  
Don't stop me  
Just hold me  
So cozy

Airplane, airplane  
Don't you go down today  
Take me away  
Off to a better place

You know  
Just where I'd like to go  
Please get me there on time  
Don't delay me from losing my mind

Don't drop me  
Don't stop me  
Just hold me

Airplane, airplane  
Don't you go down today  
Take me away  
Off to a better place

You know  
Just where I'd like to go  
Please get me there real soon  
I've important things that I must do
