i haven't much i could give you in return if you'd only
see my point of view.

i don't need you.
i don't need you.
i don't need you.
i don't need you.
i don't need you.

if you would return, i don't know what i would say
but if you forgot it would be okay.

maybe another day.
maybe another day.
maybe another day.
maybe another day.
maybe another day.

I can't give what you need
i'm telling you i can't be true??

i don't need you.
i don't need you.
i don't need you.
i don't need you.
i don't need you.

i try to hide but still you come my way.
i can't stay

maybe another day.
maybe another day.
maybe another day.
maybe another day.
maybe another day.
