You and me, we like the same kind of music.  
Thats why we make a good you and me.  
We got style, baby we know how to use it.  
Thats why we make a good you and me.

You know what I'm going to say  
Before my mouth even makes a sound,  
And thats why we make a good you and me.

You and me, we couldn't stand being normal.  
Thats why we make a good you and me.  
We both laugh at the most random situations.  
Thats the key, baby don't you agree?

You know what I'm going to say  
Before my mouth even makes a sound,  
And thats why we make a good you and me.  
I know from the sound of your breathing,

Exactly what you are feeling.  
This is why we make a good you and me.  
Make a good you and me.  
Make a good you and me.  
You and me.

Ah, ah, ah, ah...  
You and me, all that we need is each other.  
Thats why we make a good you and me.

You know what I'm going to say  
Before my mouth even makes a sound,  
And thats why we make a good you and me.  
I know from the sound of your breathing,  
Exactly what you are feeling.  
This is why we make a good you and me.  
Make a good you and me.  
Make a good you and me.  
You and me.
