My baby loves (love)
My baby loves lovin'
She's got what it takes
And she know how to use it

My baby loves (love)
My baby loves lovin'
She's got what it takes
And she know how to use it

I was lonely once in this great big world
Just a nowhere man without a girl
Till that lucky day, when she came my way
And she smiled at me as if to say

Your baby loves (love)
Your baby loves lovin'
She's got what it takes
And she know how to use it

My baby loves (love)
My baby loves lovin'
She's got what it takes
And she know how to use it

She's the only one make me feel so good
Can't believe my luck so I knock on wood
All my silent fears seem to fly away
And she looks at me as if to say

Your baby loves (love)
Your baby loves lovin'
She's got what it takes
For me

No more lonely nights just waiting for the telephone to
ring
No more lonely days my baby's taken care of
everything
I'm telling you people

My baby loves (love)

My baby loves lovin'
She's got what it takes
And she know how to use it

My baby loves (love)
My baby loves lovin'
She's got what it takes
And she know how to use it

She's the only one make me feel so good
Can't believing my luck, so I knock on wood
All my silent fears seem to fly away
And she looks at me as if to say

Your baby loves (love)
Your baby loves lovin'
She's got what it takes
And she know how to use it...

My baby loves (love)
My baby loves lovin'
She's got what it takes
And she knows how to use it

(Repeat til end)
