Do you know that I still think about you?  
Even though I know that it's too late.  
Do you know that I'm still missing you?  
Especially right now you're far away.  
There's no need to for you to tell me that; "I'm sorry",  
There's no need for you to tell me that I'm sorry,  
I said I'm sorry, I said I'm sorry...

[Chorus:]

I've got to find a way to stop you falling into my mind  
I've got to find a way to keep myself from thinking of  
you  
I've got to find a way to stop you falling into my mind  
I've got to find a way to keep myself from thinking...
