I'm lookin' for a way out, lookin' for a hole  
Waitin' for the right time, we're gonna roll  
I've got my eye on a company ship  
One of these nights we'll take a little trip

Two of us  
That is just enough  
To make a virgin planet a paradise  
Adam and Eve - in our garden of Eden  
On the other side of the skies  
Of the skies

Adam and Eve  
Adam and Eve

If you work for the man you need a little pull  
Yes sir, no sir, three bags full  
Adam and Eve - garden of Eden - ohhhhh - oooohh  
Gonna grab my chain, gonna make my break  
Give, give, I'm gonna try a little take  
Under the eyes that never rest  
Bird's gonna fly, gonna leave the nest

Two of us  
That is just enough  
To make a virgin planet a paradise  
Adam and Eve - in our garden of Eden  
On the other side of the skies  
Of the skies

We're Adam and Eve  
We're Adam and Eve  
We're Adam and Eve
