My psycho neighbours at it again  
What's the problem? [the problem]  
There's no one there except her friends  
Which she has none of  
Rambling on, No end is seen  
For all the anger [the anger]  
If her words have meaning I'm screwed  
Is she capable or able

That girl is at my door she's gonna break it down  
That girl is at my door she's gonna break it down  
Oh should I let her in or let her break it down  
That girl is at my door she's gonna break it down

Screaming swearing late at night  
No sleep 'til morning [morning]  
Is she aware how insane it seems  
What does she think of  
It's difficult not to let affect  
My mind grows weary [weary]  
My other neighbors can agree  
That she's not stable or able

That girl is at my door she's gonna break it down  
That girl is at my door she's gonna break it down  
Oh should I let her in or let her break it down  
That girl is at my door she's gonna break it down  
That girl is at my door she's gonna break it down  
That girl is at my door she's gonna break it down  
Oh should I let her in or let her break it down  
That girl is at my door she's gonna break it down
