### "Raise Your Glass"

Visit "[Raise Your Glass](#)" on MotoLyrics.com

Over the years we made some friends  
While on the road with the touring bands  
Good nights we've had, some were the best  
So raise your glass without protest

Raise your glass, raise your glass  
Come on everybody, raise your glass  
Raise your glass, raise your glass  
One big toast for our friends of the past

Another shout out goes to our crew  
For everything that they do  
The gang back home and the boys overseas  
When we needed a kick they'd give it gladly

Raise your glass, raise your glass  
Come on everybody, raise your glass  
Raise your glass, raise your glass  
One big Oi! for the crew, make it last

Finally, we salute all of you here today  
And those that couldn't get out tonight  
Without all of you we'd have no right

Raise your...awwww, yeah

Raise your glass, raise your glass  
Come on everybody, raise your glass  
Raise your glass, raise your glass  
One big toast for the friends of the past  
Raise your glass, raise your glass  
Come on everybody, raise your glass  
Raise your glass, raise your glass  
One big Oi! for the crew, make it last
