(A new world order
A helicopter, a black helicopter
In whisper mode
CIA, Waco, wacko
Oklahoma City and the boys from the other side of the
mountain)

Got a little black book, built an equalizer
Right in my kitchen out of scratch
All that it took was fertilizer,
And a U-Haul and a match
And when it it went bang, bang
Just like advertised
I went and made another batch

We'll fight the next one
With steel knives and hand guns
From the other side of the mountain
Where the true believers run
On the other side of the mountain
We'll be ready when the next one comes
All right

Charlie you bring the gasoline
I'll bring the gauze slips
We'll have ourselves a little party tonight
Down with the machine
Down with the bosses
Down with anybody who ain't white

We'll fight the next one
With steel knives and hand guns
From the other side of the mountain
Where the true believers run
On the other side of the mountain
We'll be ready when the next one comes
All right

The other side of the mountain
The other side of the hill

We'll fight the next one

With steel knives and hand guns
From the other side of the mountain
Where the true believers run
On the other side of the mountain
We'll be ready when the next one comes
All right

The other side of the mountain
The other side of the hill

The other side the mountain
The other side the mountain
