If your watching if your part of it  
If your close enough to see it, you're in it  
There's no line drawn, dividing the two  
And if you don't know where you come from  
You don't know where you're going... do you?  
And things that might have happened back in the dark  
recesses of history  
Can't happen again... can they?

There showing the colors black, white and red  
They want to play baseball on you head  
And if you sit at home with the shades drawn  
They'll never go away, they'll never be gone

There's a hundred thousand people on the street  
tonight  
There's a million more who wait behind the scenes  
I see a house divided hanging by a thread tonight  
And a people who remember where they've been

But where does it go?  
Where does it go?  
Where will he lead?  
What have we learned?  
Yeah, where does this all go?  
What does it take?  
How long will we bleed?  
How many will burn?

I saw a crowd of skins push a kid around  
One over the head, left him on the ground  
There was crowd of people, stood and cheered  
Then they melted away, just disappeared

There's a hundred thousand people on the street  
tonight  
There's a million more who wait behind the scenes  
I see a house divided hanging by a thread tonight  
And a people who remember where they've been

But where does it go?  
Where does this all go?

And they don't like him and they don't like you  
Don't like the Muslim, don't like the Jew  
Don't like the people from over there  
And they don't like me at all... look at all that hair  
Where does it go?  
Yeah, where does it go?

But where does it go?  
Where does this all go?

Where does it go?

Where does it go?  
Where will it lead?  
What have we learned?  
What does it take?  
How long will we bleed?  
How many will burn?  
Yeah, where does this all go?

Where does it go?  
Where will it lead?  
What have we learned?  
Yeah, where does this all go?  
What does it take?  
How long will we bleed?  
How many will burn?

Where does it go?  
Where does it lead?  
What have we learned?  
What does it take?  
How long will we bleed?  
How many will burn?
