Well let me tell you about, what it feels like,
To be scared of, of a woman
Always worry about she'll find out I'm not her kind of a
man
Listen to my warning hear what I say
Don't be concerned it's ok to be afraid
Oh-no, why do I need this for why can't put it down
Oh-no why do I need this for fear bringing down
There's a conspiracy in the powder room
They're going to the bathroom in pairs
To rap about why men don't communicate no wonder
no man dares
Yeah man, she bob fling to foot and leave me feel
soaked,
I always think she's laughing but I love to think I'm no
joke
So play with my emotions even though I'm no toy
All she does is act cow and I'm converted to a little by
Afraid of the broken heart from the start
Don't start and we will apart till I depart
Play smart and listen to my worries hear what they say
Don't be too concerned cause it's ok to be afraid
