Doors opened wide, there's no place to hide  
"Come take my ride" the vacuum beckons me outside  
And in my mind all circuits switch to overdrive  
Is this the time one single second to decide?

We're going down  
Bullets to the ground  
We're going down  
Bullets to the ground

And now I'm Flying  
I cut through the atmosphere  
"And now you're mind"  
The wind is howling in my ears  
My mind screams  
"Get me out of here"  
This is the time to feel  
The freedom and the fear

We're going down  
Bullets to the ground  
We're going down  
Panic all around  
We're going down  
At near the speed of sound  
We're going down  
Bullets to the ground

We're going down  
Bullets to the ground  
We're going down  
Panic all around  
We're going down  
Near the speed of sound  
We're going down  
Bullets to the ground

Down, down, down
