She got the friends but she needs a location,  
He's got a local but he needs the supplies  
Her friends have supply so they all get together  
Now everybody's welcome to the party tonight  
It's time to redefine the new school rude boy two tone  
suits,  
Hang'em by the door  
Super orgy porno party, super orgy porno party  
I've never personally been to the big party  
But I suppose that if I did I'd have a good time  
Lots a folks I see do it regularly and they tell me that it  
feels just fine  
It's time to redefine the new school rude boy two tone  
suits  
Scattered on the floor
