Out of control, gotta think fast
Can't let you forget the things in your past
It's nothing new, it's a travesty of justice
You're still high on the hog you untouchable pricks
The truth about you will now be revealed
Can't make them pay back, so lets make them feel,
The humiliation, degradation, loss of a job
The only way to teach these fucks is to take it from the
top
Hey, hey now, we're going to take it from the top
Shake down the brass, gonna come to a stop
Evil Jack bureaucrat looking bad under pressure
Need a way out but that's to bad
