

## **Plans For Revenge "Acid Reaction"**

Visit "[Acid Reaction](#)" on MotoLyrics.com

Never fleeting and the maggots are eating away at all I  
am  
Never leaving... the acid is still deteriorating  
Hands are on my head about to fall past my face and it  
still burns

And this reaction seems it's never ending  
The flesh just melts away just like the reactions

Wash out your eyes and face me... wash out this  
wound: it's so easy  
Wash out your burns and face me - wash out your eyes  
Wash out this separation

I can't forgive the promise that was never ever fulfilled  
In my head your reactions/distractions/reactions

The flesh just melts away and it still burns  
Exposing organs that burn inside of me

Reactions and my heart for you
