Hey don't you know
You gotta hitch a ride to the other side
I said go baby go
And I can't deny that it feels right to go higherÂ....

Chorus:

Touch me, hold me
We play the game together
Kiss me, it's easy
This just can't last forever
You want me, you got me but I'm yours for tonight only.

Here on your own
And apathy is your enemy
But what do you know
You might just be of some use to me to go higherÂ....

Chorus:

Touch me, hold me
We play the game together
Kiss me, it's easy
This just can't last forever
You want me, you got me but I'm yours for tonight only.
I'm yours for tonight only
I'm yours for tonight only

I wanna live my life like a fucking messiah
Live my life like a fucking messiah
Live my life like a fucking messiah
Live my life like a fucking messiah
Live my life like a fucking messiah
