When the curtains open finally revealing horror  
Hiding scenary smells like death  
Everyone who's not breathing anymore wake up  
Fingers of despots turn on the lights  
From the dark clouds sounds trumpets  
Everyone knows the last cycle is over

Blood and tears rain like an inexorable sentence  
Skies are crossed by spider webs  
Neon Canahan is take off to it's profane owners  
General dispair has the metropolis  
The great Babylon falls one more time  
The great Babylon falls one more time

This is the end of everything  
There's no escape even in the shadows  
Shadowrun has just begun

Love is cooled down in each human heart  
Desperated, everybody fornicates while cry  
In a last try to reach a sparkle of pleasure  
And prostate with their mouths on dry land  
But from breasts of the nature doesn't  
Burgeon anything else but sorrow

And they don't understand in this act  
Hold in esteen the enthroned dark angel  
Who was also humiliated under divine superb  
This is the end of everything  
There's no escape even in the shadows  
Shadowrun has just begun

Shadowrun  
Shadowrun  
Shadowrun

And they don't understand in this act  
Hold in esteen the enthroned dark angel  
Who was also humiliated under divine superb  
This is the end of everything  
There's no escape even in the shadows  
Shadowrun has just begun, begun, begun
