When you hear us say ?yes,? it sometimes means ?  
no??

We'll tell you to stop, when we want you to go  
I know that we're different, but we're all the same  
It's all in the games that we play

Now if you wanna please me don't take it so far  
You think it's gonna be easy but you're tryin' to hard  
Gotta know how to treat me, if you know what I mean  
It's still the devil and angel I'm caught between

You don't get it, don't see it, don't know what I want  
Don't know how I'm feelin' you got me all wrong boy  
So don't you forget it, you'll never get inside  
A girl's mind

If you heard what I'm sayin', you'll be thinking it  
through  
You won't do what you want, but what I want you to do  
Will you figure me out or misunderstand  
'Cause I really want you to know who I am

If you only knew what I feel for you  
If you'd only see what you mean to me  
If you'd only hear how much I care  
You'd know what's goin' on inside my head
