If I knew just what to say
I would make it go away
All this pain inside
I don't wanna fight
I refuse to say goodbye
It's because I'm much too proud
To apologize, when I know your right

There is so much I
Should've told you
But I was afraid
Come to me, let me show you

CHORUS

Cuz now I have to let you know
I don't wanna lose your love
It's to live and to die for
I don't have a doubt, I'm sure
I never felt this way before
I could live, I could die for your love
