I don't wanna lose you
I must be dreaming about you
Deep in your love deep inside of me
From night till morning
We're gonna keep on loving
Run away with me to my beautiful world
(repeats)

Ya Bb (repeats)
You are my world
This is what she said

Ya Bb (repeats)
You are my world
This is what she said
Ya Bb (repeats)

You are the one I want for me
You win my heart
I can make your wish comes to
Cause nobody will love you I'll ke I do
