You be my friend
You be my friend

You're certain, convicted
Younger and beautiful
I am uncertain
Not sure direction less

You bare your soul
And you torment convincingly
I'm biting my nails
Do I look ill at ease?

You be my friend
You be my friend

You are so pretty
And witty and natural
Charming engaging with
And up to date, throw it

I got a challenge
You stand heroically
You yeah why not you
I bow down not quite so well
Not so well

You be my friend
You be my friend

You be my friend
You be my friend
You be my friend
You be my friend
