She keeps me moving faster  
Go, baby, go

Can't stop waiting, for another chance to shake this  
But this room just won't stop moving now, I'm caught  
between it  
You and all you know, you just got it all

I cannot be alone with you tonight

Guess it's back to this girl  
(Always back to closed doors)  
I think you gotta know it, can you feel it?  
I've sworn a thousand times with you  
But no, it's not enough

I cannot be alone with you tonight  
But you keep me moving faster, go baby go

Whoah, movement never lies, you caught me by  
surprise  
The things I'd never do, I'd always do to you

Can't stop waiting (can't stop waiting)  
For another chance to shake this (a chance to shake  
this)

I cannot be alone with you tonight  
But you keep me moving faster  
Go baby go
