Pipe Dreams

CHORUS; [Playalitical]

Im so humble just runnin down my shopping list

Im tryin to save some cash

So it's a blacklight special on you lil sneakers

and anybody that owe me like more than a rack

You know who you are

And im gon find you some day

I said you know who you are

And im gon find you some day

Verse 1 [Playalitical]

The mediator of the smuggles

Translating to the mules wit eagles on the buckles

And cowboy boots they good at shippin fruit and they
love to toot

But I don't trust na damn one of em

Got no respect when they break every covenant

Im dominate not alone im dubbin it

You better get it right capo start lubbin it (lovin it)

God gave you four middle fingers start rubbin em

I started fronting elbows out cuffin em

Now they like 4 grand light when I summon em

don't tell me bout your fumbles look I don't do
publishing

Oh i know ok the cops got ya

Well Since you so 2 face how bout I split shot ya

Got casses the size of polish sausage start sloppin ya

Send ya to the ghouls eat goulash off a ya

Ya fucking wit Illuminated mafia

Im gon save the planet put earth on top of ya

To you its just offing ya to me its utopia

To use the ropes I have on my nokia.

CHORUS; [Playalitical]

Im so humble just runnin down my shopping list

Im tryin to save some cash

So it's a blacklight special on you lil sneakers

and anybody that owe me like more than a rack
You know who you are
And im gon find you some day
I said you know who you are
And im gon find you some day

Verse 2 [Playalitical]

They blow me off casually like anything goes
I rope that section off keep that vicinity froze
I blow out knees when my enemies oppose you see I
Turn em into Emily Emily Rose
They dodge playa hack salvia
hawk wedding rings off to stay away from the bore of
the calibur
Jag my money off to smoke hash outta malia
Females come up short make em the new black dahlia
Give em more then they expected start warping heads
Its war on the whores that got my uncle Ken Gorman
Hope the police see you before we do
You double agents have a higher hierarchy to speak to
I see you I make you see thru send you to icu
give you tubes and tubs for you to doo doo and pee
thru
Send magots to the magots that's where they belong
They could pollute the planet but they better off being
gone.

CHORUS; [Playalitical]

Im so humble just runnin down my shopping list
Im tryin to save some cash
So it's a blacklight special on you lil sneakers
and anybody that owe me like more than a rack
You know who you are
And im gon find you some day
I said you know who you are
And im gon find you some day
