Song: Take It There (feat Young Droop & J Slik)

Album: Code Green (2007)

CHORUS:

The tribulations that we go thru codes that we live by  
things that will mold you/ the rules we abide by  
we take and we don't make it fair/ pull a seat up take  
a chair  
you want it we can take it there. REPEATx1

Verse 1 [J Slik]

Hunger pain stomach growlin niggas styling on the  
block  
wearing my sisters socks while a 64's ass drops  
in a box damn im counting nothing but change  
so I decided right then and there that its time for a  
change  
what makes these fuckas different than me what these  
niggas born lucky  
was it me did I do something wrong did the lord fuck  
me  
couldn't be the ladder doesn't matter cuz  
regardless im broke  
not for long though its time to take the game by the  
throat  
life is good now ice now don p and crystile  
the niggas from back on the block back then is copin  
from me now  
Slik is triumphant that playa loco aint got shit on me  
cuz I got bitches for every day of the week times 3  
still spinnin beats hitin when I stop at the light  
engine soundin so astoundin like I was about to take  
flight  
look to the right that was me I could see it in the little  
man  
grabbed a wad of hundreds threw it at him so he could  
make his stand.

CHORUS:

The tribulations that we go thru codes that we live by  
things that will mold you/ the rules we abide by

we take and we don't make it fair/ pull a seat up take  
a chair  
you want it we can take it there. REPEATx1

Verse 2 [Playalitical]

Im tryin to hustle the flows yo and mussle my soul  
into this puzzle of goals yo im bustin the Code  
my story is ten times worse than hustle & flows  
I holla at A&R's and then they chuckle and role  
I stand up and get knocked down but boy I crumble and  
grow  
I get humble off of dro and I start mumbelin notes  
I get back into the lab and drop a bundle of coal  
and make the whole entire record sound like thunder  
and snow  
my only motive to go is to make these cock suckas  
know

my good side bad side is like Pac and the pope  
someone give 1 good reason why I aint rockin the  
globe  
why I gotta sit here thinking drinking plottin to blow  
the ozone is lonely for me now im choppin the door  
and yall hoes from the past is gon get popped in the  
nose  
each and everyone of yall that was back blockin my  
shows  
you got me stuck in the underworld but ill profit off  
gold.

CHORUS:

The tribulations that we go thru codes that we live by  
things that will mold you/ the rules we abide by  
we take and we don't make it fair/ pull a seat up take  
a chair  
you want it we can take it there. REPEATx1

Verse 3 [Young Droop]

My destination is soon to come its been a journey on  
this path I lead  
I got to get ahead I got that stuck in my head everyday  
when I wake up and I get out the bed im like  
let me get my paper and stacks till it crack  
wit the rap game mayne I bout to give you another  
moment of impact  
with the whole world on my shoulders now that im a  
grown man im a handful  
but im true to the game on that same token  
mothafucka that's what a real man do  
I feel success around the corner stalkin me/ the world  
is hoggin me

but I love attention ima Gemini like machaveli and  
biggie you feel me  
gangsta droop "that name is famous" im worth half  
a mil  
and that aint even countin my new shit that im about to  
reveal  
I send chills ima thrill when it comes to anything  
my expectations I want everything/ make big millions  
though off mary jane  
Im a hot commodity the world depends on my treasure  
a man wit desperate measures/ plus I got a personal  
vendetta  
watch me wake up and shake up the game like  
hurricane Katrina  
witness me flow and blow em over till people get the  
picture/ ya ya.

CHORUS:

The tribulations that we go thru codes that we live by  
things that will mold you/ the rules we abide by  
we take and we don't make it fair/ pull a seat up take  
a chair  
you want it we can take it there. REPEATx1
