Through dark sunken eye-eyes, I see another pale  
sunrise  
Surrounded by soldiers, boos and screams  
All back here in Vegas, Every kind of machines

We fight to survive, Runnin' to stay alive  
Our bodies achin' and tired, there's no where to hide  
Our cover's been blown away-ay

Space invaders (Space invaders)  
Space invaders (Space invaders)  
Space invaders (Space invaders)  
Space invaders (Space invaders), ooooh...

They're closin' in on me  
Dark forces cold and unseen  
Oh my hip pocket nerve, is achin' again  
I must go back in and fight it out to the end

Space invaders (Space invaders)  
Space invaders (Space invaders)  
Space invaders (Space invaders)  
Space invaders (Space invaders), ooooh...

Space invaders (Space invaders)  
Space invaders (Space invaders)  
Space invaders (Space invaders)  
Space invaders (Space invaders)  
Space invaders (We fight to survive)  
Space invaders (fade)
