I pray to God that men are lost in your footsteps  
And that dreams awaken these dormant eyes  
That love overflows and we live in peace  
The days end with tired arms and that luck just wants  
to be by your side.  
And that pain will not haunt you or cause you despair, I  
pray to God

Primordial sound that which is formless, omnipresent,  
Pure Consciousness  
Manifesting in love and divine bliss,  
Supreme creator beyond space and time, Supreme  
soul guiding mankind,  
Supreme inner energy that manifests as all powerful  
mother nature along  
With the unchanging and constant father  
I submit and submerge myself, I become one with.

I pray to God.  
Send us from heaven much wisdom and true love.  
That no one goes hungry. A hug from his arms to live in  
Peace ending wars  
And poverty.  
Find joy from sadness and that light illuminates the lost  
souls towards a  
Better future.
