You always think you know the better thing to do
But in this case you could be wrong
So you chuck off your shoes with an empty smile on
your face
What is the problem with you?
You're constantly in a mood and youve gotta shake it
off
It's getting on top of you again
Everything that I say is the icing on the cake and
Youve gotta laugh at it
And put it behind you, put it behind you

Chorus

Stop, I'm not your number one enemy
I'm not your number one enemy
If you wanna be a part of me
I'm not your number one enemy

Verse 2

So, now youve got this far
Do you really want to start again on your own
You say you're eternally scarred,
But it's nothing we can't fix while you're at home

I'm not your number one enemy
All of you seem to be getting me
A little confused with the way that you're treating me
again
We get along every now and then
We need to tie up the loose ends.
I know that it will be alright,
Lets stay in and talk tonight

Chorus

Stop, I'm not your number one enemy
I'm not your number one enemy
If you wanna be a part of me
I'm not your number one enemy
Stop, I'm not your number one enemy
I'm not your number one enemy
If you wanna be a part of me
I'm not your number one enemy

Middle eight

I I I I may be the one to blame sometimes

But I want it like it was before

Like it was once before

And you you you you're stuck

Inbetween what you want and what's the right thing to do

I want it like it was before

Like it was once before

Rap

Daisy

It's munk

I like this

Take off, take off, Daisys bout to take off

The ones you love the most in life

See you without your make-up

So, put the past behind ya

She don't want to fight ya

You aint hit the ceiling yet, but chill before your times up

Oh, look you must be crazy

For 1 6 she aint your average lady

So you don't really want to go daring daisy

Now she's belling me

Best thing is just let it be

Cos all she keeps on tellin me

Is that she aint your enemy

She aint your enemy

Scarlett! She aint your enemy so

Stop!

Chorus

Stop, I'm not your number one enemy

I'm not your number one enemy

If you wanna be a part of me

I'm not your number one enemy

Stop, I'm not your number one enemy

I'm not your number one enemy

If you wanna be a part of me

I'm not your number one enemy

If you wanna be a part of me

I'm not your number one enemy

Number one enemy

Number one enemy

Number one enemy

Number one enemy
