It's time for something new
And now the wind and freedom directs me
I'm spinning at my beat
And there were you
And neither times or willness corrects me
You've burst into the view
Just like an angel flying
I'm looking your way, babe
I know you're the one

CHORUS:

Girl, jump in my car
And let it steady the music sounds loudly
Girl, jump in my car
We gonna leave them all behind proudly
Hey, now let's find a way how
To break speed of the ride
I feel your body's flame now
Let's find a way up
You better hold on tight
I fell your body's flame

We're driving to the end
I haven't felt so long saturation
I'm satisfied with just the way I am
My heart acquires acceleration
You've burst into my plans
I'm living the engine running
Stopping for one kiss
And tender embrace

CHORUS

Set you free from the chains x3
I feel your body's flame x2
Set you free from the chains x3

Come on baby face the whind, you can cut it with a
knife
Let our joy ride go on, cause the shortest things life x2

Set you free from the chains

Cause the shortest things life
Set yor free from the chains

CHORUS
