I'm on the loose and off the ground  
Come on make me turn around  
I'll get my feet back on the ground  
If you make me turn around  
They say we don't have a chance  
And you don't need no new romance  
Let'em get out  
We've got a chance  
Baby you are one and only  
Deep inside  
I'm feeling lonely  
Love and emotions  
Make me so tender  
Give in to me  
It's the sweetest surrender

Love and emotions  
Make me so tender  
Don't be afraid  
It's the sweetest surrender  
Yeah the sweetest surrender  
Hey girl you gave my life a brandnew start  
Your fascination melts my frozen heart  
You make me see the sunshine endlessly  
I beg you baby find your love in me

I'd love to leave this heartbreak town  
Come on make me turn around  
Oh babe I couldn't figure out  
That you'd make me turn around  
They warn you my love is fake  
'Oh babe don't make a big mistake!'  
Let'em get out  
It's not a mistake  
Babe what have you done I wonder  
I see the blue and hear the thunder
