Man, I hope y'all can excuse me for a lil' minute, man
Just sitting here thinking 'bout my little partner
Who just got killed, man, it's wild tho'

How the mothafuckers you love the most
Seem like them the ones who always die first, homie
Dawg I just wish I had the opportunity
To just bring my nigga back for just 1 day, homie

Wish I can bring my nigga back for 1 day
And take him by the daycare to see his son play
And go to show him how his, baby, momma done went
stray
And how them fuck niggas who claiming
They love you done walked away

Wish I can bring my nigga back for 1 day
And take him by the daycare to see his son play
And go to show him how his, baby, momma done went
stray
And how them fuck niggas who claiming
They love you done walked away

God give me my nigga fo' 24 hours
So, we can ride and laugh at these pussy ass cowards
Get to the liquor park and let's talk for hours
Show him how if the nigga die how they lose they
power

Nigga, forget about ya, dawg, after they give you them
flowers
Ol' trifling ass baby momma done got wilder
Now, she fucking the nigga you robbed, wit' the pink
impala
Like I told you befo' dawg, that ho' sour

You can fuck these hoe's dawg but don't handle them
Bitch you ain't got shit, dawg money arouse them
After a nigga dead and gone they lose they value
Hoe cried at ya funeral and changed right after

Wish I can bring my nigga back for 1 day

And take him by the daycare to see his son play
And go to show him how his, baby, momma done went
stray
And how them fuck niggas who claiming
They love you done walked away

Wish I can bring my nigga back for 1 day
And take him by the daycare to see his son play
And go to show him how his, baby, momma done went
stray
And how them fuck niggas who claiming
They love you done walked away

When you first died, a nigga sat around ya momma all
day
But since ya funernal them niggas ain't went that
fuckin' way
'Cause when you die yo dawgs suppose to step to the
plate
You ain't gotta worry, I got her I'll make sure she
straight

Make you question if the love was real or was it fake
Out of sight out of mind, I guess it's true what they say
When you was here, them ones was main niggas in yo
face
You ain't gotta deal wit' them fuck niggas, you in a
better place

I almost cried when I seen yo son the other day
You couldn't deny that one boy look like you all the way
I thought love was forever I guess that ain't the case
First you die then they bury ya, the niggas walk away

Wish I can bring my nigga back for 1 day
And take him by the daycare to see his son play
And go to show him how his, baby, momma done went
stray
And how them fuck niggas who claiming
They love you done walked away

Wish I can bring my nigga back for 1 day
And take him by the daycare to see his son play
And go to show him how his, baby, momma done went
stray
And how them fuck niggas who claiming
They love you done walked away

I'm sitting right here homie eyes full of tears
Never thought that pain last this many years
One thing I've learned from all of this shit life real

Rep yo name til I die homie that's how I feel

Watch how everything changed since you got killed
Two days after you died, niggas broke in yo crib
Niggas saying yo lil' cousin the one who sold yo wheels
This shit probably shouldn't fuck wit' me but it really is

Mothafuckers showed me what Shasta really is
What's gon' happen to me after I die, one of my
biggest fears
See what my partner done been through got me scared
to live
I pray to God, my life don't end like his

Wish I can bring my nigga back for 1 day
And take him by the daycare to see his son play
And go to show him how his, baby, momma done went
stray
And how them fuck niggas who claiming
They love you done walked away

Wish I can bring my nigga back for 1 day
And take him by the daycare to see his son play
And go to show him how his, baby, momma done went
stray
And how them fuck niggas who claiming
They love you done walked away
