Car full of choppers and everybody quiet
A car full of goons and everybody certified
And if you froze up last time you can't ride
It's goin' down tonight 'coz these goons out lurkin

Car full of choppers and everybody quiet
A car full of goons and everybody certified
And if you froze up last time you can't ride
It's goin' down tonight 'coz these goons out lurkin

Five in the mornin', ain't nobody out but us
And everybody sleep but we been awake to sit up
And finna teach you *** 'bout playin' with us
We find your duck *** tonight, lil' homie, you out of
luck

And he don't know we comin', finna get his life took
We ride with Bin Laden *** a hundred round plus
Before he went to sleep he ain't know he wouldn't be
wakin' up
It's already understood, the *** get behind us, flush

And we ain't comin' home till all the clips empty
And we ain't shootin' up no house, it draw too much
attention
We catch your *** comin' out, lil' homie, you guess it
And I bet one mother*** thing *** we ain't missing

Car full of choppers and everybody quiet
A car full of goons and everybody certified
And if you froze up last time you can't ride
It's goin' down tonight 'coz these goons out lurkin
Car full of choppers and everybody quiet
A car full of goons and everybody certified
And if you froze up last time you can't ride
It's goin' down tonight 'coz these goons out lurkin

You might miss the newspaper but you gon' make the
news
Victim found face down, knocked him by the shoes
Them choppers went off, he tried to run but couldn't
move

Sawed him in a half, that chopper broke him down in two

Everything them hollow points hit knock them loose
We want your homeboys, naw *** we ain't through
Them *** find a hundred *** but ain't got a clue
Now everybody claim they know who *** over you

A big mouth don't get you *** but a big funeral
And a bunch of mother*** cryin' who claimin' they knew you
You can't bring him back, stop cryin', the *** dead
He should've kept his mouth close, he ain't know how to play it

Car full of choppers and everybody quiet
A car full of goons and everybody certified
And if you froze up last time you can't ride
It's goin' down tonight 'coz these goons out lurkin

Car full of choppers and everybody quiet
A car full of goons and everybody certified
And if you froze up last time you can't ride
It's goin' down tonight 'coz these goons out lurkin

'Coz these goons out lurkin
