Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
you say it's gonna take time, we gonna take whatever
you say
we gonna ride for you, you just ride fo' us you just
make sure we're straight

Everybody lost, everybody 9:11, I know the families
should be proud of you
got a job, cope a lot and you still make time for your
family too
you gave hope to the black man, brought peace to the
home land
whether you was wight or black, you made us feel like
yeah we can
you blew life into the middle class, never made the
both feel bad
the only thing that we ask of you, is to forget about it is
that how we act,
tryin to feed the world that's a big tag
real force that we never had and some people I no see
her mad
I go summer up the up real bad, but
Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
we know we gonna be alright as long you do what you
say
you gonna ride, we gonna ride, we gonna make you
stay
Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
you say it's gonna take time, we gonna believe
whatever you say
we gonna ride for you, you just ride fo' us you just
make sure we're straight.
It's still people that's all the work, but yet still they

underpaid
it's still hard to keep the roof over your head
especially when you try to do off get on my way
crack long we was past and hit the light it did that
but the justice is it feel bad, we still in work when it
come to that
school teachers teach our future, but yeah they still
treat em like a nuisance
when the opportunity of this institution
yeah we still ain't protected by the constitution
the hood I still rock my own around, so many people
tryin' to steal drama
we just like everybody else, we just tryin' survive and I
surround
lot of still the broken home, lot of raise with out pops
gone,
I debt solution still pushing on,
'cause in hard times that's when champions longue
if you fail down press your cellphone,
and come back strong if he's here before
if I learn what they from Obama
that's damn furn let em push on,
Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
you say it's gonna take time, we gonna believe
whatever you say
we gonna ride for you, you just ride fo' us you just
make sure we're straight.
Right now we ain't celebrating all these still issues we
still face,
the best man he did with, and that was clear in this
case
we ain't braggin we're just the ..and all lust it feels ..
'cause right now we in a different space
without you we was a lost race,
high look we on pace, I see God that's what I grace
problems solved that we can't escape,
made mistakes so we gain the race
all agenda, all race, all lust pushing right away
we love to see so I'm coming home, that's something
that we all say
I know we pray for a merry day, we pray to God that he
keep 'em save
I hope that none lose faith, 'cause we all know is gonna
be right the days
all the soldiers that we did lose, I know God got 'em in
a better place
your heart and your.. that's up thinking never be
replaced

Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
Rome what'nt built in a day, what'nt built in a day,
what'nt built in a day,
you say it's gonna take time, we gonna believe
whatever you say
we gonna ride for you, you just ride fo' us you just
make sure we're straight.
