Stick with me, stick with me,

Await the sign, await the sign dear  
Hold on to me, stand by me please,

Await the sign that I will send to you  
Love was warm and great love could fill my heart  
Then my life was saved loving you  
Trusting was the deal the dream was almost real  
But love drifted away unfaithful lies

Who needs love? Who needs hugs? Who needs drugs?  
I am hurt.

Don't need love Don't need hugs Don't need drugs I am  
Hurt.

Love is hard and sharp love has killed my heart  
The world is a let down well! tough shit  
Love is cruel and strange love can turn to hate  
Hate is growing here there and everywhere

Who needs love? Who needs hugs? Who needs drugs?  
I am hurt.

Don't need love Don't need hugs Don't need drugs I am  
Hurt.
