Lost forever in the darkness trapped beyond the sense
of time

Doesn't remember why he's enclosed there, he only
knows he's on his own

Tryin' to find the way to escape, drifting inside, drifting
alone

How many soldiers have tried to escape The underhall
levels, tunnels of the damned.

Hey Mike hey Mike please take me to the other side
Hurry up don't waste your time the evil worms are
leaving the pipes

Hey Mike hey Mike please take me to the other side
Lieutenant of the green team and Robert Swain have
already seen the eternal white

Perpetual night in the future world, the system is fallen
the values are lost

The imperial ruins now behold the stars the concrete
blocks squander their past

Now this place reminds us all of the intrinsic madness
of the human soul

Ghostly shadows in the air they don't know they're
already dead

Hey Mike hey Mike please take me to the other side
Hurry up don't waste your time the evil worms are
leaving the pipes

Hey Mike hey Mike please take me to the other side
Lieutenant of the green team and Robert Swain have
already seen the eternal white
