"New Day"

Visit "[New Day](#)" on MotoLyrics.com

I learnt reason
Is where it's at
I still get the blues but
I keep coming back
It's alright
On my side
I saw a lady
Who only drinks champagne
She thinks she's so classy
I think she's inane
It's alright
On my side
There's folk alike around me
And it feels good
So all of this won't bug me
Least not today
I saw a guy who
Thinks he's got a great arse
He lives to be gorgeous
I just think he's a twat
It's alright
On my side
There's folk alike around me
And it feels good
Not closing doors and fading
Like a setting sun
So there's all this love around me
Let me feel it again
That's when I believe I'm standing
For a new day
Hey there Princess!
Hey there Beautiful!
We'll take your hands now
Just try and let go
Grow with all this love around us
Let's all share it again
That's when we'll believe we're standing
In a new day
New Day
A SHEEP TALE
(Come 'ere then...)

Come little ones let us tell you a story
About a black sheep in a bold ancient land
Where most sheep were good but others were bad
And they huffed and they puffed 'till they made him
feel
Sad
So he went to the mountains
Went to the sea
He opened his heart and breathed
Soft warm light fell upon
Two tired eyes
Time stood still and he cried
Back to the flock and he felt so alone
He dreamed of a friend and a place they'd call home
Nothing else mattered and no one else cared
Then out of the blue another black sheep appeared
And they went to the mountains
Went to the sea
Opened their hearts and breathed
Soft warm light fell on four
Loving warm eyes
Time stood still and they smiled
At the sun
