Choice, confidentialities
The way to go, you know
Learn, present your future on a
Platter to the ones that say, don't go

But then the world that comes crashing
Down on you, and that's why I'm scared,
So scared

Why was it me that answered
Its your turn to lose this time
I give you nothing in return
And that's why I ask
R U UP 4 IT

Care, of not what but how
Anyone's to grow, you show
Fear, a hyped up feeling
Given weight to scare, that you show

But then the world that comes crashing
Down on you, and that's why I'm scared,
So scared

Why was it me that answered
Its your turn to lose this time
I give you nothing in return
And that's why I ask
R U UP 4 IT

Piece me together
I'm here standing with you
R U UP 4 IT

Why was it me that answered
Its your turn to lose this time
I give you nothing in return
And that's why I ask
R U UP 4 IT
