The latrine scum  
Still more to go in our town  
Hand in hand with zionist and the media, too  
We have to kick them down  
We're white, we unite and we're ready to fight  
Side-by-side  
Death before dishonour, skin is our type  
It's our aryan pride  
[Refrain:]  
Hail the swastika  
Hail the holocaust  
Hail the swastika  
Hail the swastika  
Hail the holocaust  
Hail the mighty swastika!  
We fight for the existence of the white race  
Every day  
Niggers and jews, gooks and communists  
You have to pay!  
The race war is here, there's no turning back  
We won't retreat  
Our enemies already starting to run  
From our screams  
[Refrain x2]  
This is the final solution: racial holy war!  
We're gonna win this time, the world  
And that's for sure  
The race traitors burning, the swastika's flying  
What a lovely sight!  
The symbol of freedom, the symbol of honour  
Red, black and white  
[Refrain]
