Hallo and welcome to the invisible empire
Gather around as we light this fire
People, listen to me
I will tell you the score
There's too many immigrants
and we don't want any more

[Refrain:]
Cos we're the invisible empire
It's all around you
Invisible empire is getting bigger
Invisible empire is looking at you
Invisible empire
Watch out nigger

We're in the neighborhood
But you don't know
We won't rest until you go
We're in your schools
We're in your jobs
We're on the corner
and we're watching Europe

[Refrain]

We're in your cities
We're in your towns
You can't escape
Cos we'll track you down
Look behind you
We're in the streets
We're all around
And we wont retreat

[Refrain]

If you ignore us
Then you will see
We don't take shit
Cos this is our country
Take your ugly women

And take your cash
We don't want you near us
Dirty black trash

[Refrain]
