"One day in Europe"

Visit "[One day in Europe](#)" on MotoLyrics.com

One day in Europe - They will see through the lies
One day in Europe - Our people will rise
One day in Europe - We'll rejoice in our race
One day in Europe - We'll meet our enemies face to face

The poisons's spreading and it gets me down
Pick your head up don't you wear that frown
It can be done if we are unified
Live by your conscience, what you feel inside

One day in Europe - We will steam the flow
One day in Europe - We'll destroy our foes
One day in Europe - We'll keep right on track
One day in Europe - We'll once again be on the attack

I'm not just dreamer I know it can be done
All these problems can be overcome
Can we see victory? Well my heart says Yes!
We'll save our people from multi-cultural mess

One day in Europe - Our dreams will come true
One day in Europe - It's up to me and you
One day in Europe - We will see the light
One day in Europe - Proud to be White
