"Segregation"

Visit "[Segregation](#)" on MotoLyrics.com

It ain't right to mix up races
It ain't right to interbreed
It ain't right to force our people
To live amongst this weed

Segregation - the people scream
Segregation - is what we need
Segregation - separate nations
Segregation - to protect our breed
To protect our breed
(Lets rock'n roll)

Segregation - the people scream
Segregation - is what we need
Segregation - separate nations
Segregation - to protect our breed
To protect our breed

It ain't right to sell out our nation
It ain't right to give it all away
The time is now to seek out the traitors
The time is now to make â€™ em pay

Segregation - the people scream
Segregation - is what we need
Segregation - separate nations
Segregation - to protect our breed
To protect our breed
